

# Welcome World Travelers!

Turn in your signed Syllabus or Autobiography!!

**THIS IS DUE TODAY!**

1. Update your Syllabus with my website
2. Grab your Exit Ticket from the pick up tray
3. Compare answers with group

# Exit Ticket Review

1. If you were in Africa and went south which continent would you end up in?
  1. Asia
  2. Antarctica
  3. Australia
  4. North America
2. Which continent is touching the eastern border of Europe?
  1. North America
  2. South America
  3. Asia
  4. Africa
3. Which continent is not touching any other continents?
  1. North America
  2. Europe
  3. Australia/Oceania
  4. Asia
4. What are themes of geography?
5. What are the themes of history?

# Human Origins

- Scientists use artifacts or things made by people to learn about the culture or way of life of early humans
- We learned that humans made advances in the period known as the Stone Age
- It lasted from 2.5 million years ago to 3000 B.C.

# Human Origins

- The Stone Age was broken into two sections.
- The first section was the Paleolithic Age or Old Stone Age which lasted from 2.5 million years to 8000 B.C.
- The second half was the Neolithic Age or New Stone Age which lasted from 8000 B.C. to 3000 B.C.
- What changed between the stone ages was the end of the Ice Age.

# Early Human Migration, 1,600,000–10,000 B.C.

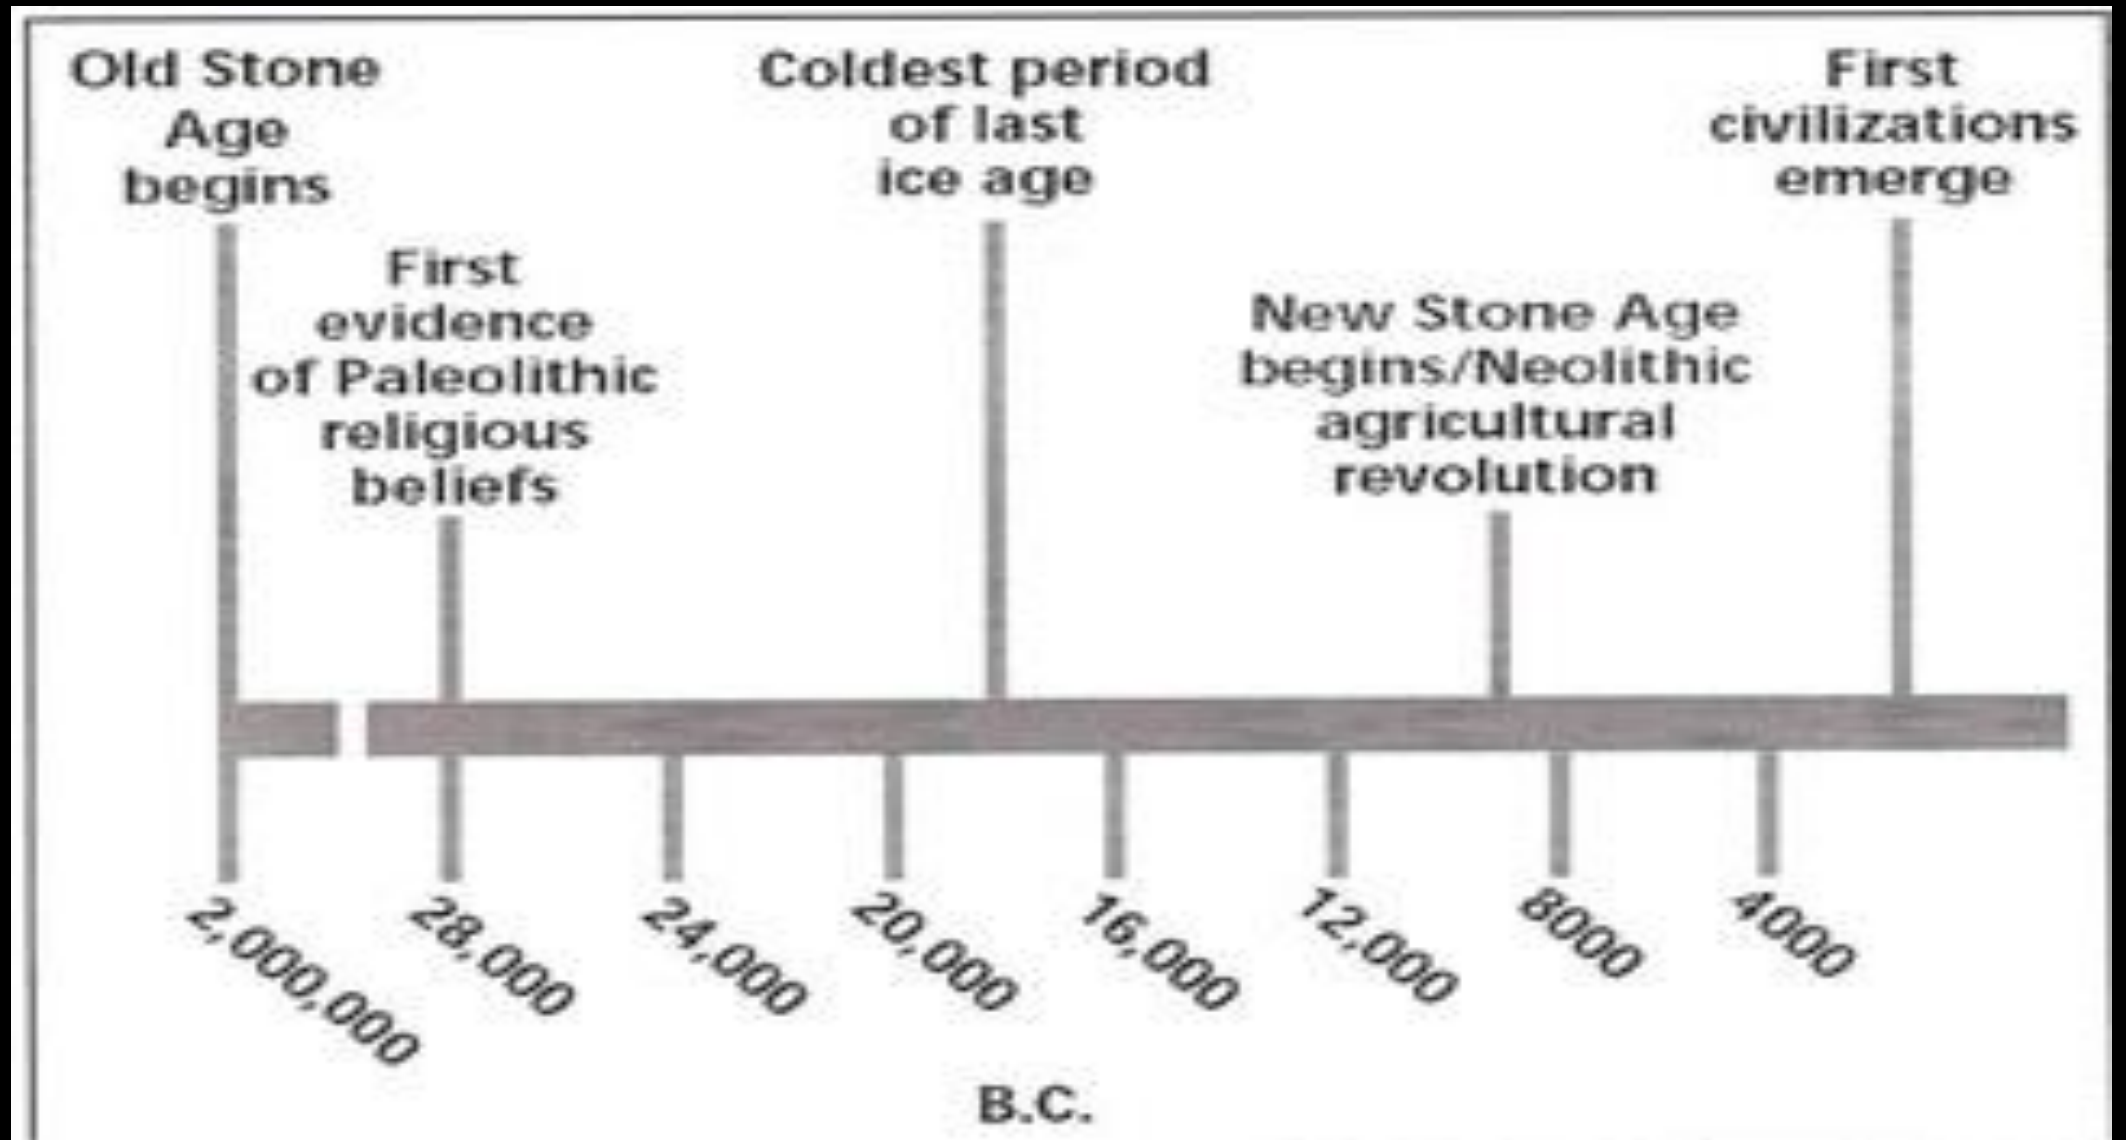

**INTERACTIVE**

Questions? Preguntas?

# Timeline

# Early Human Advancement

- During the Old Stone Age, people were nomads or people who moved place to place in search of food. They were also called hunter-gathers for they hunted or gathered food from the wild.
- During this time early people learned to build tools, use fire, and paint.

# Early Human Advancement

- As people learned they discovered how to **farm and domesticate**. Domestication is the taming of animals.
- These two advancements led to the Neolithic Revolution also called the **agricultural revolution**.
- This phenomenon happened around 9,000 years ago.

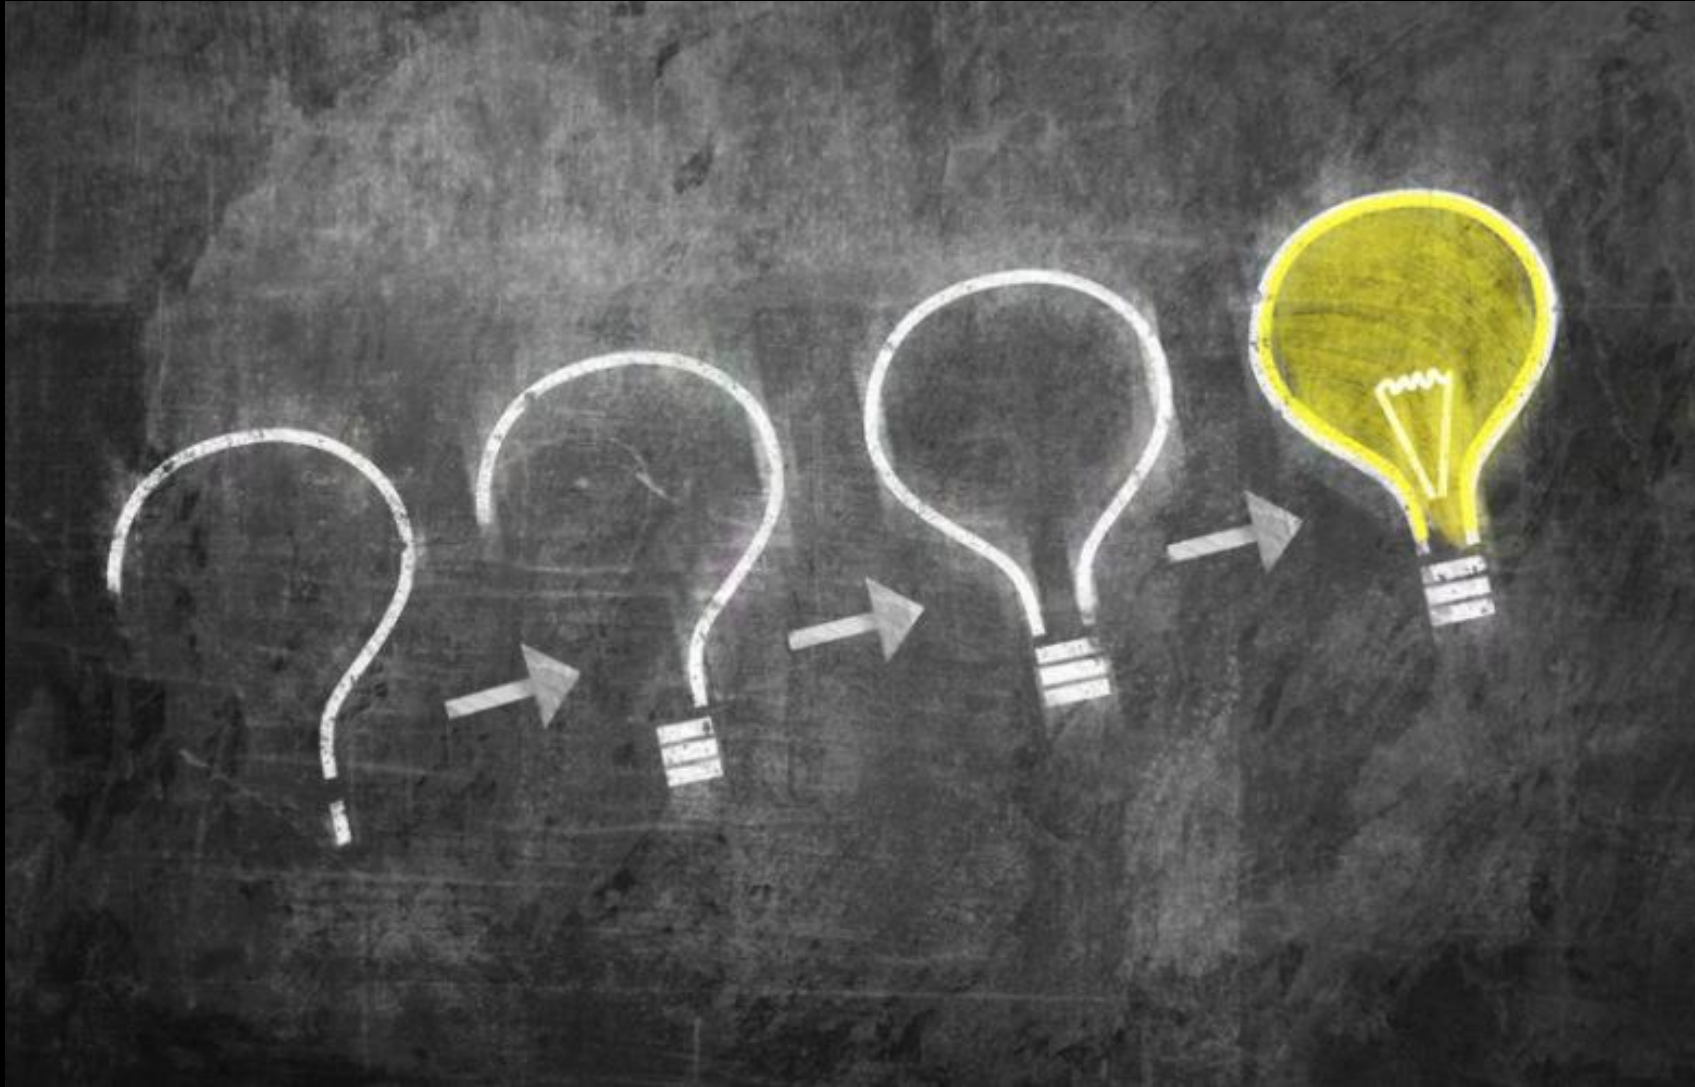

# Beginning of Civilization

- Villages formed after the Neolithic Revolution.
- The first recorded village was called **Catal Huyuk** in modern day Turkey.
- Farming increases created a **surplus or extra** which allowed for villages to grow into cities and form the building blocks of civilizations.

Questions? Preguntas?

# Pulse Check

1. What are the other names of the Paleolithic and Neolithic Ages?
2. What are the two parts of the Neolithic revolution?
3. Why do you think this revolution important?

## Riddle Me This

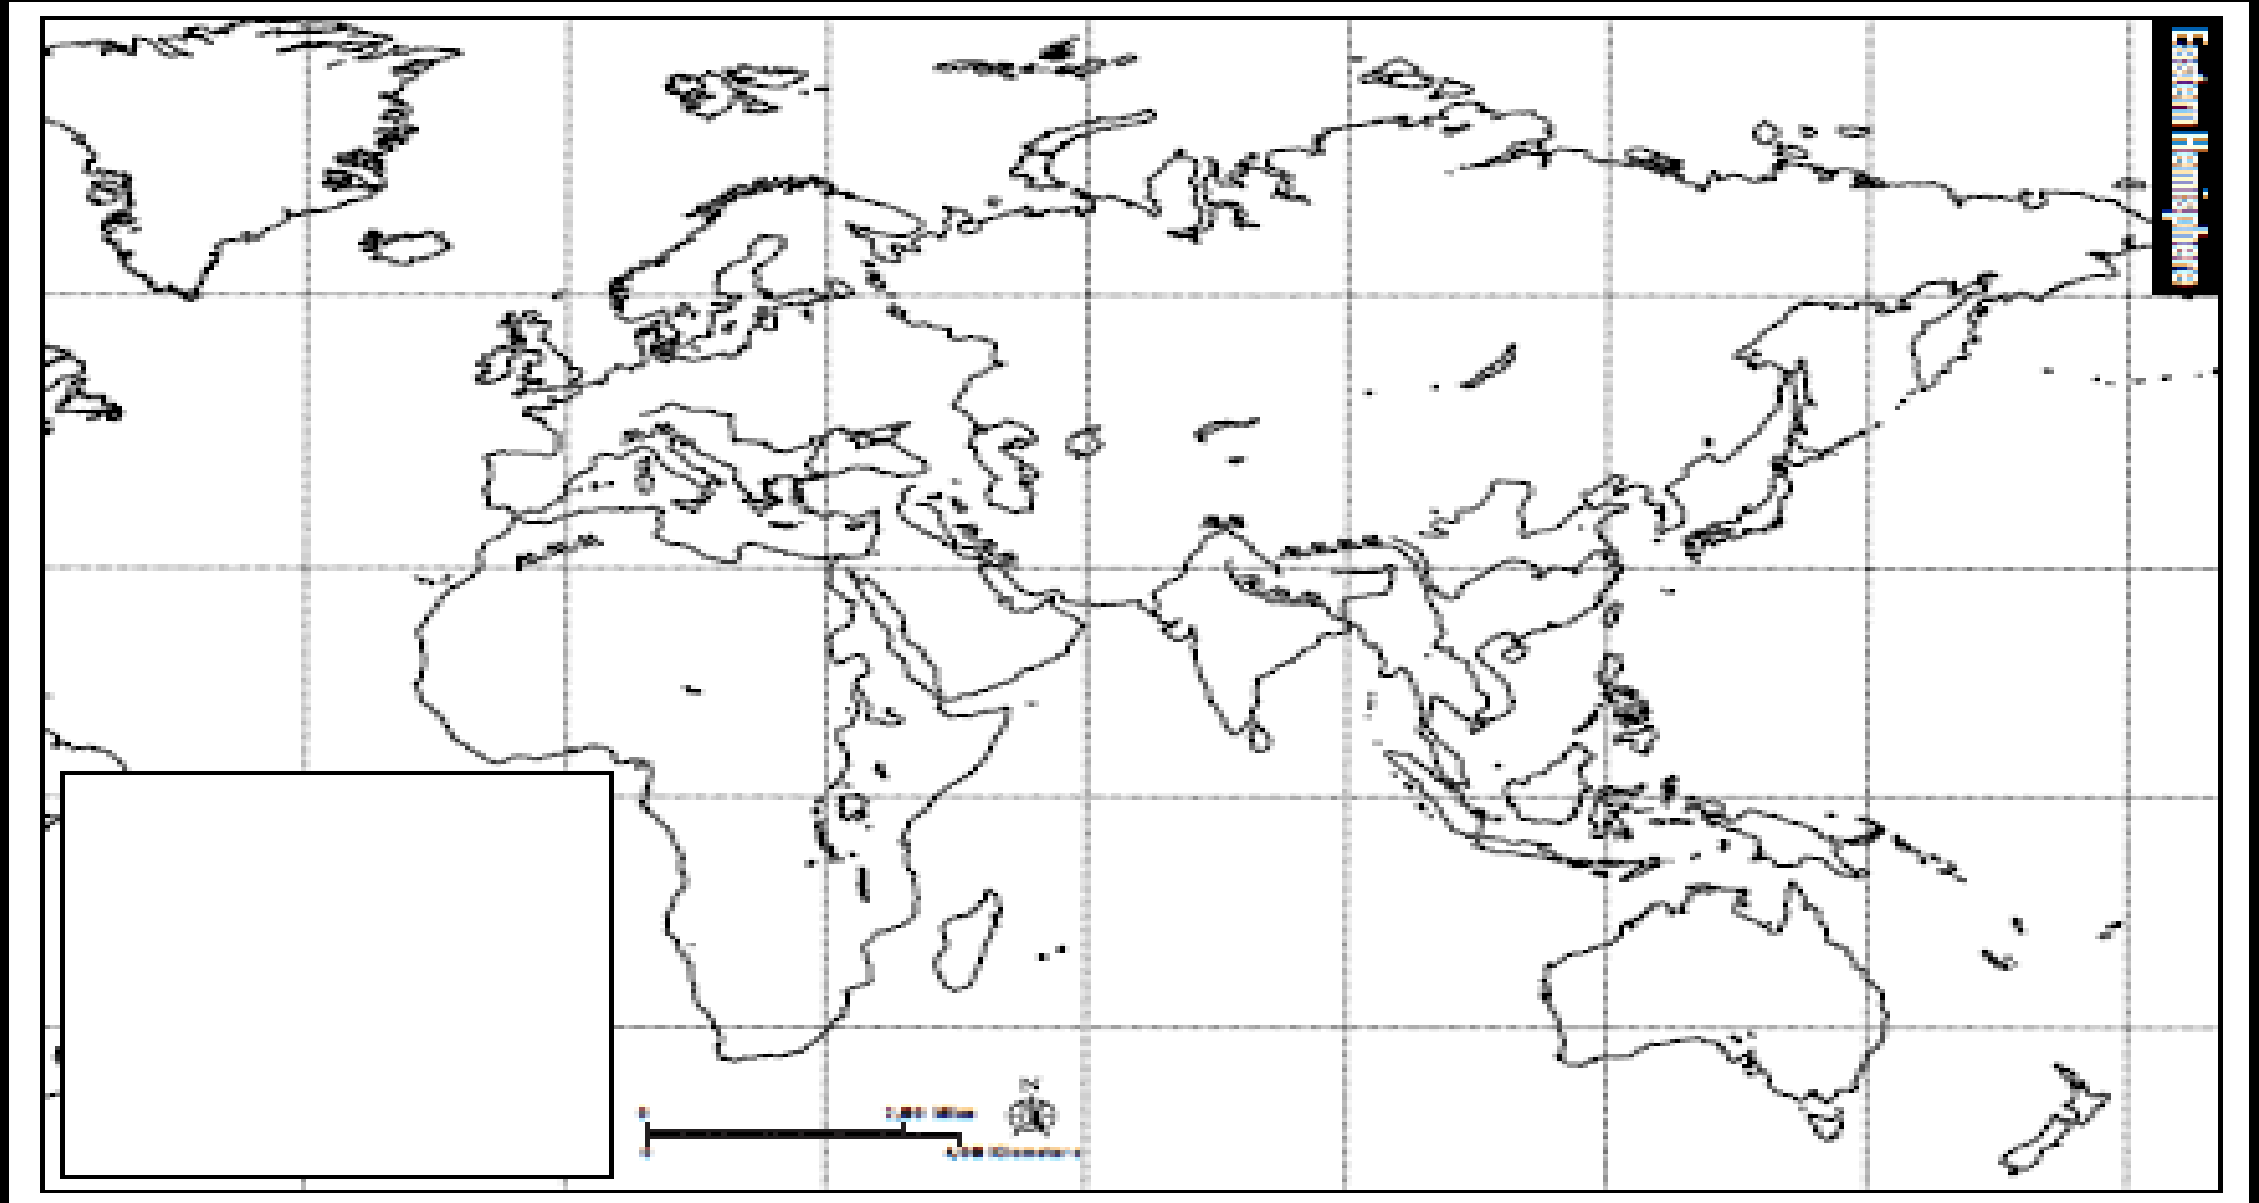

Is geography important  
when building a  
civilization?

What do these areas have in common?

Why did civilization form here?

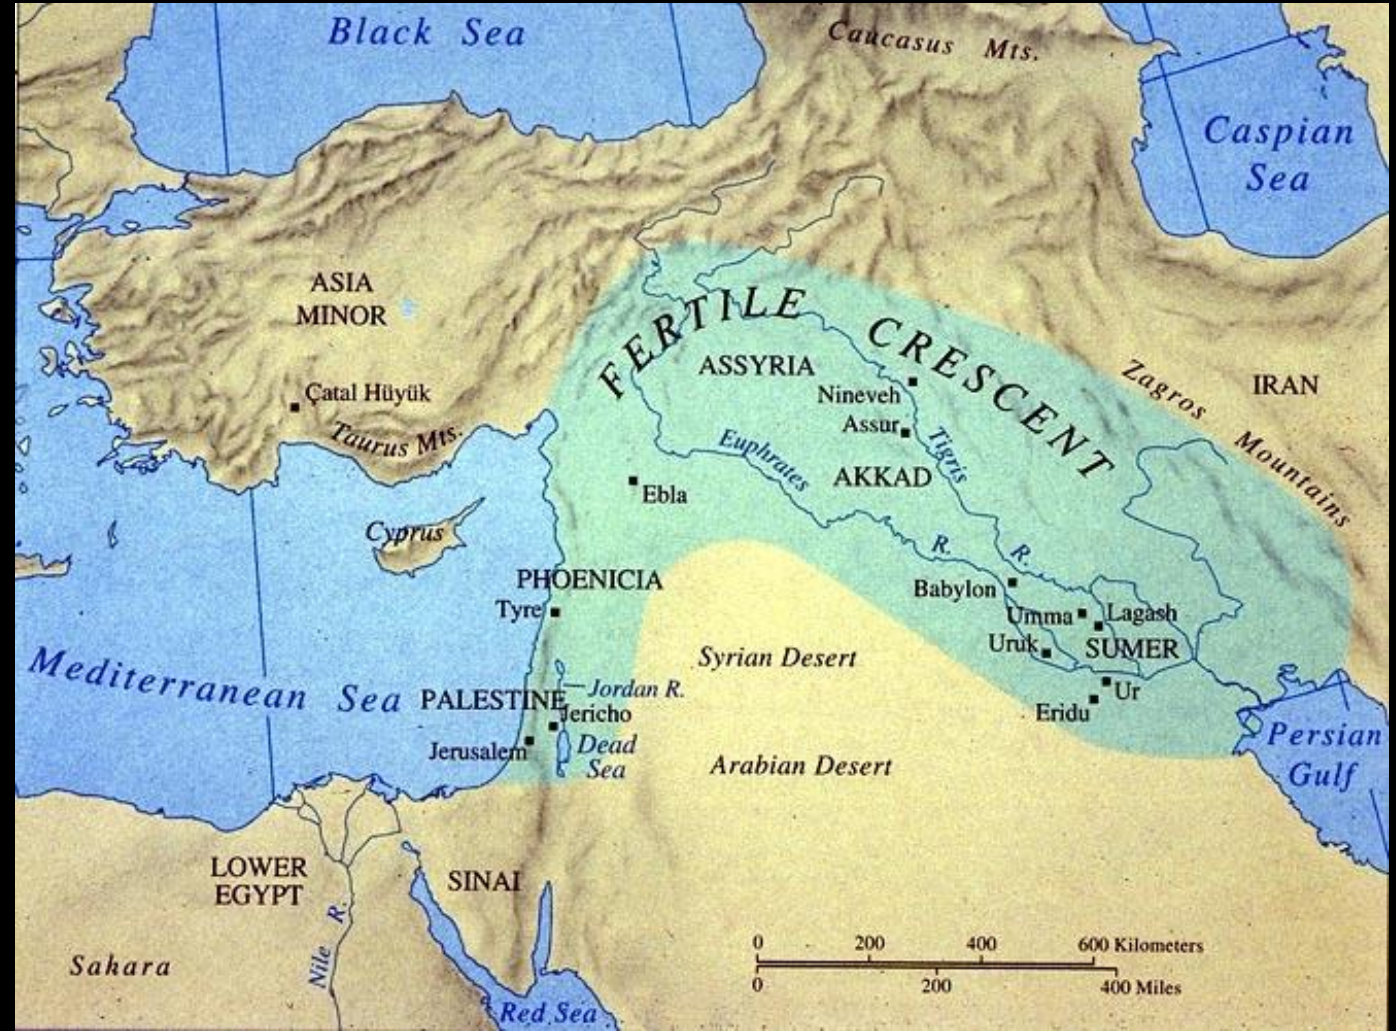

Label the map with the four river valley civilizations

# United States

# Fertile Crescent

## Riddle Me This

Is geography important  
when building a  
civilization?

Questions? Preguntas?

# Exit Ticket
